

AUSSIEMATE

The Pinnacle of Rugged Perfection.

Part of our rugged series of caravans and field tested in some of the most hostile environments Australia has to offer, the AussieMate is appointed with new levels of refinement seldom seen on an all terrain vehicle before and boasting all the gadgets one would expect for a top of the range caravan. Our most popular model is the perfect fusion of sophistication and toughness.

Equipped with an EnduroX coated tandem airbag suspension system, along with an EnduroX coated chassis, the AussieMate also boasts a 3000W Enerdrive inverter / charger with a 300Ah lithium battery, alongside 4 X 200W solar panels for that extra piece of mind.

The stunning interior features our patented electric bed and club lounge, with soft touch leather furnishings, high quality finishing throughout and all the latest appliances. These include a Thetford compressor refrigerator, A/C in roof and a Wi-Fi router.

Tough on the Outside, Luxuriously Soft on the Inside
