

ECOMATE

The Ultimate Luxury Adventure Caravan.

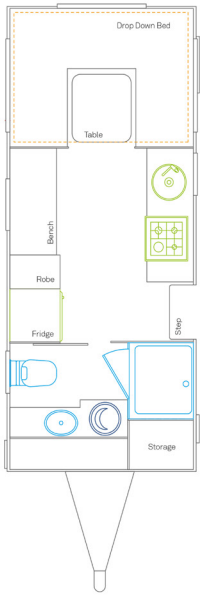

Completely deluxe, totally customisable and packed with enough state of the art features to satisfy the most tech savvy, say hello to the van of tomorrow - Our New Ecomate. This extravagantly elite caravan is a top-of-the-line option for those looking for a comfortable and sustainable way to explore the great outdoors.

Its generous capabilities allow worry free camping in Australia's most remote locations, with the powerful lithium system not just for cooking but also climate control. An array of 5 200W solar panels including 2 on sliders provide ample power to the advanced Enerdrive combi system and with 600Ah of lithium batteries, you can enjoy extensive usage of all your personal devices.

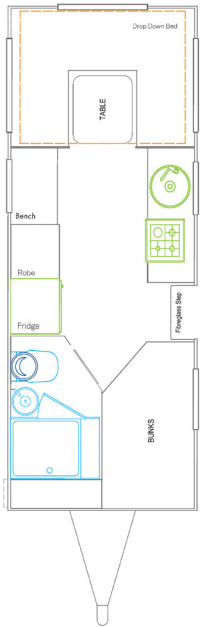

This year, we have also added a combination diesel heater, ensuring warm showers and cosy living even during the coldest months of winter. Of course to truly explore the great outdoors, you also need a rig that can get you there. That's why we've added Cruisemaster ATX airbag suspension to all Ecomate models, along with patented EnduroX chassis protection. It's time to leave the beaten track today and start the adventure of a lifetime.

The Ecomate. Bringing your adventures in the great outdoors to life.
