

RAPTOR

The Raptor. Designed for Playtime.

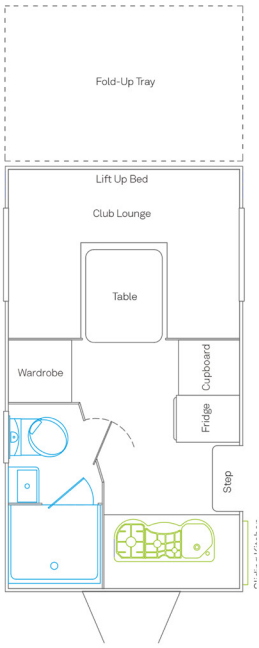

Specifically designed for playtime, our Raptor is developed for a fun packed holiday in the great outdoors. Combining a touch of luxury with the versatility of a trailer, the Raptor is encircled by a roof rack and rear ladder that is customizable and can incorporate additional roof top storage options for kayaks, dinghies and all your fishing equipment. The area above the draw bar has a large tool box and rear fold up tray, designed for a quad-bike, or dual motor-cross/dirt bike.

Not to be outdone by it's larger cousins, the Raptor comes standard with ample internal storage areas, generous sleeping quarters, a slide out kitchen with twin gas bottles, Internal and external shower facilities and 3x 200W solar panels.

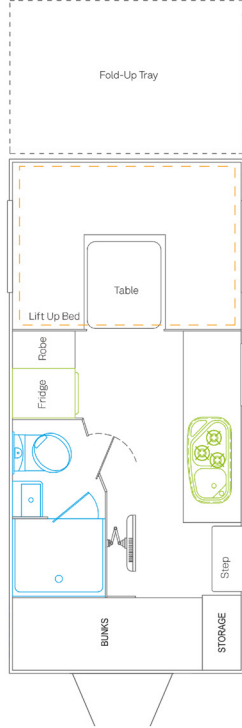

This year we have added a 3000w Enerdrive inverter / charger and a 300ah lithium battery to ensure the Raptor is the perfect van for that adventure weekend away.

The Raptor. Let's get going!
