

Razor XT

The Razor XT. Tough, Rugged and Compact!

Our compact Razor XT punches way above its weight in, luxury, design and overall sturdiness. This year we have packed in even more features, with a 3000W Victron Multiplus II inverter / charger, 2x 200AMP lithium batteries, 600W of solar and Independent EnduroX coated suspension on all tandem floor plans.

As with all our models, this van is built with style in mind. Aimed at buyers that are looking for a lighter to tow adventure caravan, the Razor XT will ensure you and your loved ones enjoy moments of magic on the wide open road and beyond.

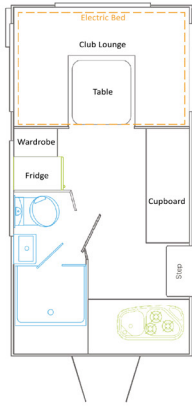

Whether you're an experienced enthusiast or first time buyer, the Razor XT has something for everyone. It's ideal for those looking to explore the wilderness in style, making it perfect for couples or small families exploring the country together. With its slide out electric BBQ kitchen and internal gas hobs you can cook up an absolute storm, while enjoying all the wonders the Australian countryside has to offer. Life is nothing without adventure. That's why we created the Razor XT.

Take bold adventures, never look back!
