CARAVANS

THE TITANIUM FAMILY

Titanium Caravans is a passionate Australian-owned and family run business that specialises in designing and manufacturing premium off-road caravans.

As a family-owned company, we understand the importance of creating memories that last a lifetime. At Titanium Caravans, toughness isn't just a feature – it's a promise.

Built with precision engineering our caravans are the epitome of strength and reliability, ready to conquer any terrain. Whether you're traversing rocky trails or navigating winding roads, trust in Titanium Caravans to deliver the ultimate in durability and performance.

Experience the difference of owning a Titanium caravan – an exclusive blend of luxury, reliability, and adventure. By merging product innovation and unique experience Titanium redefine what it means to own a caravan.

BE INSPIRED

Embarking on adventures across Australia's majestic landscapes, some well-known members of the Titanium family are showcasing the spirit of exploration in their Titanium Caravan. They're not just traveling; they're setting a trend, inspiring the next generation with colours and designs to spark any imagination.

89 Trafalgar Road, Epping VIC 3076

REDEFINING INDUSTRY STANDARDS

Wolf Fabrication was born out of the desire to offer a premium selection of parts to compliment our caravans.

A sister company to Titanium Caravans, Wolf Fabrication has a dedicated team of engineers and fabrication specialists; combined with high-end machinery and premium materials, we have created the most refined metal products available in the market.

From picnic tables to premium rear bars, our range of accessories are ready to be added to enhance your caravan.

WOLF FABRICATION
35 Nexus Drive, Epping VIC 3076

HEAR FROM THE TITANIUM FAMILY

Mark Rumley

Our Turn has finally come big thanks to Jules and the titanium team for providing an excellent Quality product. From the time we ordered to build day we were kept very well informed. Loved seeing the progress photos every couple of days, made us feel very special. Best induction we've ever had picking up a new van, thanks Rob great job. This thing tows like a champion and has absolutely everything we asked for. The quality finish is exactly what we were after. Well done team great effort. Thanks Jason.

Paul Mitchell

A great experience ordering our van and now using our van. A high end product and a great team. Set up now in Western Queensland, beer in hand and appreciating more each day how good our van is. Thanks guys.

James Waltrovitz

We purchased our Titanium Hardcore ATX 21 Caravan in December 2022, and love our caravan, its really good quality. From the moment we contacted Jason on the phone he made the initial sorting out what we needed very easy. Thank you to Jason and specially to Jules, who we dealt with for all the sorting out of everything and for been understanding in what we wanted, and I'd also like to thank Sean for on the day we picked up our caravan he did a great job of making sure everything was good.

Donna Hollier

To say I'm in love with our new Titanium Caravan would be an understatement! This is the caravan of my dreams that has been brought to reality thanks to the team at Titanium. Special mention and thanks to Jason, Jules, Steve and Nick for being so awesome during our build dealing with any questions and queries we had, and to the team behind the scenes we thank you for your awesome workmanship on our caravan. This van is the Taj Mahal of caravans!!! Our family of 5 lives full-time on the road and this van has made life so much more comfortable that I don't think we will ever stop travelling. Thanks again legends, from all of us here at Campedia - Happy Holliers

Karen Cordwell

We purchased our Titanium Caravan in October this year 2022. After a couple of weeks we thought we had a major issue with the floor. We contacted Joellene in Warranty. Both Joellene and Jason (the owner) went over and above to put our mind at ease and rectify the issue of which ended up being a very simple fix. The whole team at Titanium are absolutely fabulous and really take pride in their work/product which is also backed up by their warranty and after sales service which in my opinion is just as important as the sale. We would have no hesitation in recommending Titanium Caravans to anyone that is looking at purchasing a new van. A great big THANK YOU to everyone at the Titanium Caravan factory in Melbourne.

Chris Anderson

I did a LOT of research before purchasing our Titanium Hardcore 20.6 from Caravans Coffs Coast, over a year in fact. I was impressed that Titanium caravans are custom built, and the quality of the products & materials used during the build were the best. I was able to customise the not only the colours and layout of the van, but also some of the features of the vehicle itself. And the service we have received directly from Titanium Caravans has been first class, they are more than happy to answer questions and give advice.

Titanium Caravans Owners Group

Charlotte

Finally took the plunge and ordered our very own Titanium at the Brisbane show today. Have been researching for a long time now but always came back to the Titanium brand. You guys sold me on the after sales service so hopefully we made the right decision, cos to be honest I am super excited and super nervous all at the same time!

Michaela

Welcome to the family, we are picking ours up in a month! They are a fantastic company and when we went to the factory you could see the staff were all a happy bunch which says a lot. You won't regret your decision 😊

Pam

You will love it. Our beautiful van has exceeded expectations. You will never regret decision & Titanium team are awesome. Enjoy the process.

2

Brad

You certainly won't regret it. Jason and the Team certainly know how to build a van and more importantly is that the after sales service is second to none. Welcome to the Titanium family.

6

Pam

You will love it. Our beautiful van has exceeded expectations. You will never regret decision & Titanium team are awesome. Enjoy the process.

2

Tim

We just wanted to leave a review of the absolutely amazing customer service we received from Trav and the boys in the service department. We have been caravanning for nearly twenty years and we can honestly say we have never experienced service like what we have experienced this week. We had a number of issues with our van that were all covered under warranty but what's more, the boys went above and beyond what we expected. They were generous with their time and absolute professionals. But. The icing on the cake was when we drive from Melbourne to Albury on our way home to Qld. When we arrived in Albury we found that our aventa air conditioning unit had blown a fuse. It was 37 degrees yesterday and 38 degrees today. Needless to say we had a hot night. But. Izzy from titanium travelled all the way from Melbourne to Albury today to fix it with No complaints and just a massive smile on his face. He gave us so many tips while he was us in how best to manage our power usage whilst off grid. Plus. He also fixed the fuse and now we have air con. We just can not believe the service. So. To Trav, Josh, Izzy and all the boys in the service department. THANKYOU so much. You guys are amazing. To Jason. You have the most amazing boys working for you there. You should be proud.

Dene

Our van is 4 years old. Over a week ago, I rang Titanium Parts number and spoke to Lachlan. Our whirlybird vent worked well but had gone a bit yellow and didn't look right to me, being a bit fussy. I had decided to replace it. Nothing to do with warranty. Lachlan emailed the next day to say it was sent, it's now through NZ Customs according to tracking. I've asked for the invoice, but I'm being ghosted 🙄🙄

5

Mark

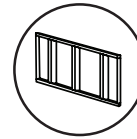

Like I tell people you get what you pay for. Great to see people take pride in their work and congratulations **Jason** you've got a great team

6

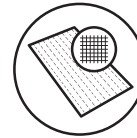

YOU WON'T REGRET A TITANIUM CARAVAN

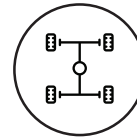

1. ALUMINIUM FRAME

Following the automotive and aviation industries our interlocking aluminium wall frames are Henrob riveted together and designed to last past the life of a traditional timber frame and aluminium welded caravan, being impervious to rot, moisture, termites and cracking.

2. ONE PIECE FIBREGLASS COMPOSITE PANEL ROOF

The roof is constructed with a unique one piece fibreglass composite panel that eliminates water leak points, is also hail resistant and insulates better than a framed roof.

3. HEAVY DUTY CHASSIS

Using steel sourced from Australian tube mills our chassis are designed and manufactured locally by Titanium and our boutique chassis fabricators. Our chassis are built for off-road and come with an extended A-Frame as standard and can be optioned with a truss.

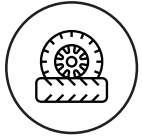

4. IN-HOUSE ELECTRICIANS AND PLUMBERS

All of our qualified in-house electricians and plumbers are experienced and dedicated to producing consistently high quality caravans, each and every time.

5. HAIL RESISTANT CLADDING

Vans are cladded with a 3mm hail resistant German RV composite cladding in a variety of colours.

6. RUGGED BUILD AND LOOKS

All of our caravans are purpose built for Australia's uncompromising conditions and guaranteed to turn heads at every camp site.

7. SUPERIOR WARRANTY & SERVICE NETWORK

We offer a 5 year structural and 2 year manufacturer warranty as standard, we also offer a nationwide service network with over 450 approved caravan service centres to carry out your warranty items.

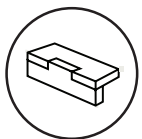

8. INDUSTRY LEADING CUSTOMER SERVICE

A dedicated customer service team works with you every step of the way.

9. AUSTRALIAN MADE AND OWNED

Titanium Caravans pride ourselves on being Australian made and owned, sourcing premium componentry supporting the local manufacturing industry.

10. INTERLOCKING FURNITURE

Our product designers have developed precise tongue-in-groove furniture, installed throughout your caravan to ensure everything remains rock solid, there are over 650 interlocking furniture joins in the average Titanium Caravan.

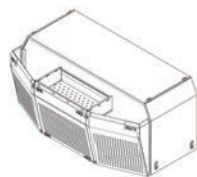

INNOVATION BY TITANIUM CARAVANS

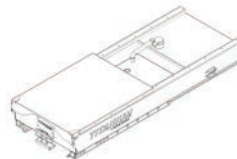

Titanium Caravans is one of the few caravan manufactures with their own in-house fabrication business, Wolf Fabrication. Our designers have invested in improving many of the commonly used components in our vans.

Please note these optional extras are subject to model, layout, weight and towing requirements.

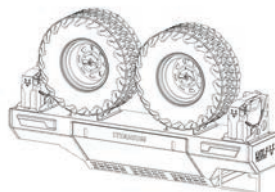

TOOLBOXES

Our toolboxes come in two spacious sizes and are designed with a heavy-duty Weber and generator slides. We build them with sturdy runners, and full-length storage suitable for tables and camping chairs.

SLIDE OUT KITCHEN

Our slide-out kitchen comes with 304 stainless steel grade construction and can be optioned for either gas or induction cooking. It also includes a bottle opener latch, fold-out shelf for the Weber and a fabricated sink with mixer taps.

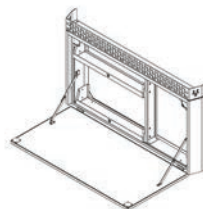

PREMIUM REAR BARS

Our state-of-the-art premium rear bars can be optioned to carry one or two spare wheels, come with two jerry can holders, have integrated LED tail lights and extra drawer storage. Constructed with a 2mm thick aluminium black powder-coated body, they're aesthetically unparalleled.

PREMIUM REAR SPOILER

With a sleek military look, our black powder-coated rear spoiler not only looks tough but can be used to mount extra solar.

EXTERNAL PANTRY & TV BOX

The external pantry & entertainment box combines functionality with efficiency, fixed to your caravan's exterior to save on interior space. It features internal shelving for kitchen essentials. This innovative solution ensures your condiments are always within reach, without sacrificing any internal storage.

FLOORPLANS

At Titanium Caravans, we pride ourselves on working closely with you to create a tailored design that perfectly complements your lifestyle and budget. Whether you're a first-time caravanner, or looking to upsize, we have the expertise to design your dream caravan. Explore our range of spacious layouts to define your perfect caravan.

T²² S1

Bring all the luxuries of home along to your favourite holiday spots. The **S1** boasts tough looks, superb build quality and all the components you need to journey to those secret beaches tucked away down winding tracks.

Tackle off-road challenges without breaking a sweat, with a 6-inch A-frame, 4X4 chassis, plus Cruisemaster XT coil suspension and 4-inch chassis raiser.

Combine ample water storage and 400 watts of solar, together with our interlocking Henrob riveted aluminium frame and one piece roof system and you get the S1: the perfect off-road van for all your adventures.

Enjoy generous space with clever storage units and large boot with dual-side access. We've packed everything in, from the oven to the washing machine, so you can holiday for as long as your heart desires. Get the most out of your van by choosing one of our highly functional lightweight layouts; you'll notice excellent stability and fuel economy on the road, and handy features at every turn.

Enjoy peace of mind knowing that your caravan is manufactured in Australia using Australian-made components. Together with Titanium's great factory warranty – the S1 is built to stand the test of time and will be your reliable home away from home.

TI²² S4

Thoughtfully designed for true off-road adventurers, the **S4** boasts aggressive looks, superb build quality and all the components you need when exploring Australia's uncompromising conditions.

Combine a 6-inch A-frame with 4X4 galvanised chassis, S4 Level 3 wireless airbag suspension with Deemax disc brakes, together with our interlocking Henrob riveted aluminium frame and one piece roof system, and you'll see the S4 simply has no peer when it comes to off-road caravanning.

Staying off-grid is a breeze, with 245 litres of water in our Australian-made poly tanks. Fitted with Enerdrive's BMS, 400amps of lithium, 800 watts of solar, and 60amp AC charger with 40A DC2DC+, you have enough power and solar to last as long as you like! You can literally take this beauty anywhere your 4WD — and imagination — can reach.

Choose from one of our thoughtful layouts, recline in the leather lounge and enjoy a good night's rest on our premium mattresses. Outside, utilize our biggest toolbox, generator storage and slide-out kitchen.

Enjoy peace of mind knowing that your caravan is manufactured in Australia using Australian-made components. Together with Titanium's great factory warranty, the S4 is built to stand the test of time and turn heads all around the country.
